

“Fred Meets Peaches”

Fred Meets Peaches is an archplot. I consider it an archplot because the story is meant to unfold over multiple seasons, with each season having its own little over-arching plot and the episodes themselves have an arc that feeds the season narrative as well as the season's, and the entire series.

I wrote this to appear episodic, in an effort to create a “stand alone” piece with a story compelling the viewer into the story as a larger draw. This series could be considered episodic; however the episodes were written in this way to feed the larger archplot.

The protagonist is Fred. He is unknowingly thrust into a period of self-discovery and healing relationships which he must overcome to find fulfilment and happiness.

The antagonist is not your traditional Villian chillin' in a lair so commonly afoul. Fred's antagonist is internal struggle, social norms, events, and circumstances that all converge in a manner that Fred has to resolve to overcome his abandonment and anger after his wife died of COVID.

Fred Meets Peaches

Based on a true story, maybe your story, maybe not.

A blurred aerial photograph of San Francisco's city streets and buildings, showing a dense grid pattern.

San Francisco Present Time

Fred

Vice President [Retired],
Implementation of Functionary Systems Dynamics

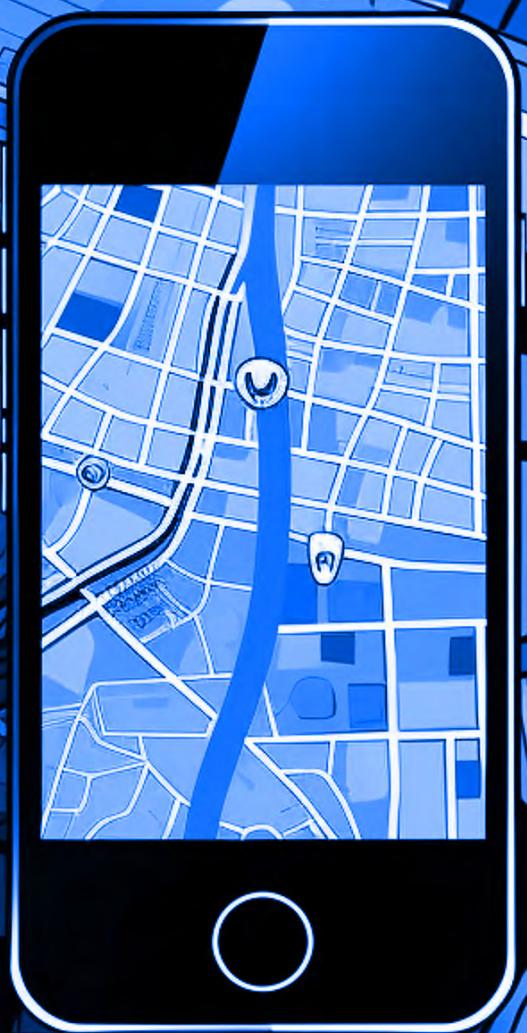

Fred retired from Apple 10 years ago. He is 63 and has a 33-year-old son who he hasn't seen since COVID.

He is a non-drinker but loves The Pit because they knocked out the wall so now he can get hot meals from the joint next door easier.

Fred

Fred likes to eat out a lot. BBQ is his favorite, but loves anything you cook.

He knows all the great places to eat in San Francisco.

Jenny

Jenny is 33. She is the Karaoke Queen of The Pit. After Jenny's father passed, she started hanging out with Fred more. They both missed her father.

Jenny's main gig is being an artist, her work is collected by the supermodel Mauve. The two women have developed an odd relationship centered around a Shih Tzu.

Mauve

Mauve is a Super Model.

She spends most of her days
in makeup and on set with
The Photographer.

She bought Peaches
because she thought the dog
would look great with her
then brand new fur coat.

PETA forced Mauve to give
up fur, and as a result, she is
now bored with Peaches and
often leaves her with Jenny.

She's considering giving
Peaches to Jenny.

Peaches

Peaches is a Shih Tzu owned by Mauve but, is mostly cared for by Jenny. Peaches really doesn't like hanging out with models all day. She wants to play and have fun.

Significant Others:

Characters who will be Supporting to the main characters. Will we see them OR will they remain elusive and revealed in the Finale?

We plan to tease the audience with clues and easter eggs.

Winona

Fred's wife.

They were packed and ready to move to a small cabin in the woods when Covid hit.

She passed from Covid it's first summer.

Jerry

Fred's long-time buddy.

Jerry & Fred have a history together they don't talk about much.

Along with Jenny's father, Jerry served in the Army. Fred didn't serve but has worked with the all branches as a civilian contractor.

Fred's Son

A Long-distance relationship.

Somehow, his name is not revealed during the run of the season. He is always referred to as "my" or "our son" or just "son".

We will reveal his name, but that will be with clues such as a to be developed **red door**

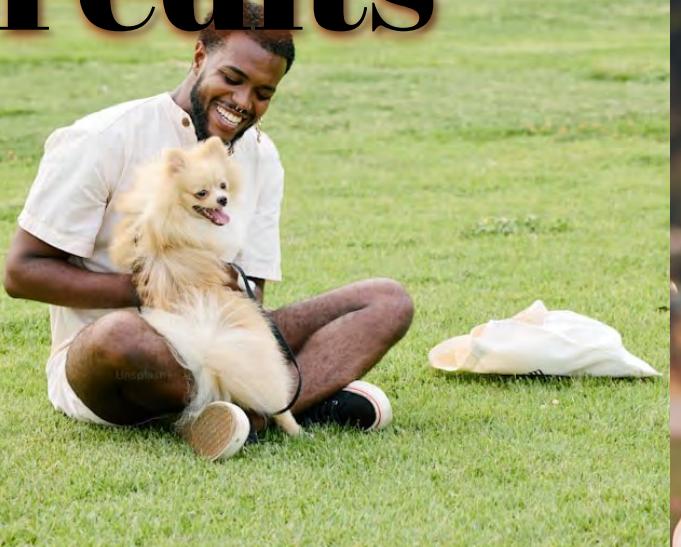

Photographer

Mauve's shadow.

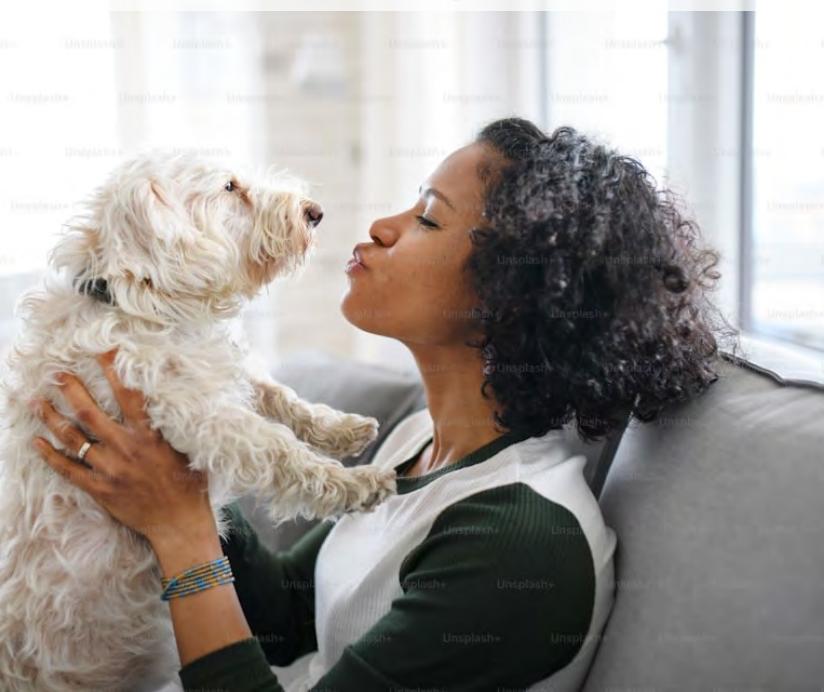

With a very cylindrical and plain body shape along with choices in presentation, all we know is: someone is always taking a photo of Mauve.

Clues to be developed
